BITTER FIGHT BEING WAGED IN LEGISLATURE

One of the bitterest fights ever waged in the Legislature is now being waged over the reapportionment of Congressional and Assembly districts. The same two factions fought a hard battle over the speakership of the Assembly. Speaker Levey is leading the northern delegates in favor of the Craig Assembly bill for reapportionment, while the Little faction from south of the Tehachapi is fighting for the McKinley bill.

Nevada and Sierra counties are vitally interested, inasmuch as the McKinley bill places these two counties in the Assembly district with Yuba, Sutter and Yolo counties. Since the interests of these counties are largely agricultural and for years have been enemies of the mountain counties, it would be a gross injustice to link with them counties whose interests are mostly mining. The three valley counties have the larger population, so they would be successful in electing any man they chose to run for the Assembly. The man thus elected would be indebted to the valley counties and their interests would be taken care of even to the detriment of the mountain counties. Thus Nevada and Sierra counties would have practically no representation in the Placer, Nevada and Sierra counties linked together.

In the Craig Assembly bill the mountain counties of Nevada, Placer, El Dorado, Amador, Alpine, Calaveeras, Tuolumne and Mariposa are joined into an Assembly district. While this is a much larger district, it is one in which the interests of the counties are the same and our identity would not be lost, since these are not counties with large population.

The Congressional district which Harry Englebright represents will remain virtually unchanged in both bills. Although it lacks considerable in necessary population, both factions conceded this favor to Mr. Englebright for the tremendous work done in Congress for the reapportionment, for it was due to his efforts that California will have nine new Congressmen at the next session of Congress. He has been spending most of his time at Sacramento since his return from Washington endeavoring to work out a reapportionment that would be as fair as possible to all sides, and will no doubt be successful, as he thoroughly understands the situation and has burned midnight oil pouring over the maps and figures. He is also highly regarded by the members of the Legislature, who look to him for counsel.

"Jerry" Seawell is Levey's right-hand man in the fight for the Craig bill and has worked tirelessly for its success. The bill was to have come before the Assembly yesterday, but was postponed on account of the talk which Horam Johnson gave in the Assembly chambers. It is due for consideration by the Assembly on Monday, and in the meantime both sides are doing all in their power.

The legislators will be glad when the matter is cleaned from the slate, as no legislation can be enacted while the fight for reapportionment is on.

MRS. E. W. SCHMIDT ENTERTAINS AT BRIDGE

Mrs. E. W. Schmidt entertained at bridge last Saturday evening and had as guests two of the evening bridge clubs and several other friends. Her daughter, Miss Mary Schmidt, assisted her in receiving.

Dinner was served at small tables attractively centered with carnations, after which bridge was played for several hours.

Upon counting scores it was found honors were made by Mrs. George Stine, Mrs. E. C. Uren, Mrs. E. M. Rector and Mrs. William Maguire. Mrs. Nellie Clark was fortunate guesser of a draw prize.

An interesting feature of the affair was community singing, led by Miss Schmidt, Mrs. Gov. Celio, Mrs. Rector and Mrs. Stine. Mrs. Celio and Mrs. Stine also gave delightful solos. Mrs. Geo. Hitchens acted as accompanist.

NEVADA CITY PIONEER RESIDENT PASSES AWAY

Once more the grim reaper—Death—has swung his scythe and called to the great beyond another of Nevada Citys' pioneer residents in the person of Mrs. Catherine Ann Coughlin, wife of J. D. Coughlin. Mrs. Coughlin passed away Tuesday morning at 11:30 o'lock as the result of a long, protracted heart affliction. Although her death was not unexpected, as her condition has been quite serious for some time the news of her passing was received as more or less of a shock by her countless friends in the city where she has lived practically all her life, having been born here on January 4, 1868; attended school and graduated from Nevada City High School with the class of 1886.

Mrs. Coughlin's interest in life centered in her home with her husband and two sons, Miles D. and Cecil Coughlin, who survive her. Two brothers, John Allen and Robert Allen Clancy, survive their sister.

Though home was all in all to her she found time to assist neighbors and friends in their trials and troubles. She was of a happy disposition, and even as the long shadows of the Great Beyond approached, she was solicitious of the welfare of those she loved. She will be missed in her home and among her friends, and the sympathy of the community goes out to those she leaves bereft.

The funeral was held at 2 o'clock Thursday afternoon, and interment was made in Grass Valley. Holmes Funeral Home had charge of the funeral arrangements.

MASONS DESIGNATE EDUCATIONAL WEEK

John Stewart Ross, Grand Master of the Masonic Lodge of California, has designated the week commencing Monday, April 20th, as Educational Week. While the grand master of the Masonic fraternity has selected the week of observanre it is in no sense an exclusive Masonic affair. The general public is not only asked but is urged to participate.

Grand Master Adams of the Masonic Lodge originated the custom several years ago, and its observance has spread to all parts of California, and has been participated in by school authorities and the patrons of the school.

Nevada Lodge No. 13 F. and A. M. has appointed a committee to arrange for a lecture during the week and Dr. Noel Keyh of the educational department of the University of California will be the speaker. His subject will be "Education for an Age of Change."

The lecture will be given on the evening of Thursday, April 23rd at a place to be determined later and there will also be a musical and literary program.

0

LOCAL WOMEN GUESTS OF HONOR AT PALS CLUB

Mrs. Fred W. Worth and Mrs. Elsie Willoughby were guests of honor at the Pals Club (Protective Association of Lonesome Souls), composed of the wives of the members of the Legislature,, at a bridge luncheon on Wednesday at the Sacramento Hotel.

The party which was held on April 1 was in the form of an April Fool party and the guests found finger bowls at their places when seated. These were removed and an ice followed, so the whole meal was reversed. The favors were also in keeping with the day. A profusion of lovely spring blossoms, which were the gift to the Pals Club from the superintendent of the capitol grounds adorned the tables.

The guests included Mrs. James Rolph, Jr., Mrs. Frank Merriam, wife of the Lieutenant Governor, and Mrs. B. Levey, wife of the Assembly Speaker.

At the conclusion of the luncheon, bridge was played.

The compliment was given the local ladies in return for the entertainment which the ladies received in Nevada City when they were guests of the Mining Association March 7th.

LEGISLATIVE GOSSIP AROUND STATE CAPITAL

By BERT A. CASSIDY

The Senate Investigating Committee which was appointed to make a legislative investigation into the controversy between the people of Inyo and Mono counties and the City of Los Angeles, returned to Sacramento Monday morning after a three-day trip to the two counties who desired the investigation. Hearings were conducted in the town of Big Pine, Lone Pine, Independece, Bishop ad Leviing. Hundreds of citizens in the two counties were present at these hearings. Additional hearings will be held on the investigation during the coming two weeks and it is hoped a report will be ready the middle of next month. The committee is composed of Senators James M. Allen, Chairman; C. C. Baker, Bert A. Cassidy; Senators James M. Allen, Chairman; C. C. Baker, Bert A. Cassidy, Nelson T. Edwards and M. McCormack. Paul Yarwood, Secretary to Lt. Governor Frank F. Merriam, made the trip as Secretary of the Committee. Senator Joe Riley, who introduced the Resolution ,also accocompanied the committee.

* * *

Legislative leaders now are hopeful that the present session will end the latter part of April. Committees are beginning to function with more precision and members are showing signs of a desire to finish the work. A large number of blils are beginning to die via the committee route. Others are being killed en route to the Governor. There will be a large number of new laws placed upon the statute books at the present session of the legislature, if conditions continue to show the same progress. Senate members seem to be loathe to vote against bills that are coming before them for consideration. Probably they will become more finicky as the session progresses and will act more arbitrarily on legislative matters.

* * *

A maximum speed of 45 miles an hour will be allowed California motorists, during the coming two years, if the amendments adopted by the motor vehicle committee in the Senate are not stricken out in the Assembly. A maximum of 25 miles in residential districts and 20 miles in the business district was also adopted. A lengthy discussion was indulged in relative to eliminating the limit on speeds, but the committee members felt it would be a serious error to eliminate speed laws until the present highway system was a little nearer completion, with wider highways and more curve eliminations. A new type of license plate was also adopted and henceforth, the word California will be spelled out across the bottom of the plate rather than the abbreviation Cal. as is the present custom.

0

PLEASANT VIEW, MT. ALTA MINES TAKEN OVER

CAMPTONVILLE, April 2.—(Special)—Dr. Clyde Wayland, a prominent physician of San Jose, has taken over the Pleasant View and Mr. Alta Mines along with the St. Clair Homestead, and expects to begin operations within a short time.

In making the deal Dr. Wayland has absorbed a former company known as the Pleasant View Properties, Ltd., which worked the mine last fall, but due to litigations and internal trouble in the company they had to give it up, and in taking it over Dr. Wayland has assumed the old company's business and expects to straighten everything out within a short time.

He expects to install new electrical equipment, and open the property from the Mt. Alta side with a cross-cut to the Pleasant View. C. N. Chatfield is in charge of the work, being familiar with the property and a very good man at the mining industry.

0

VISITS NEVADA CITY

G. D. Midgley, district deputy grand master of the Odd Fellows of California, accompanied by Auburn members of the order, visited Oustamah lodge last evening. The visiting officer was given a fine reception and reviewed the work of the order in an interesting manner.

SHERIFF WINSTEAD DIES SUDDENLY

Dire disaster seems to stalk the footsteps of Sheriff C. J. Winstead and family of Sierra County since his election to office in January last. On March 11th the sheriff's little grand-daughter was instantly killed by a revolver bullet accidentally discharged while being used as a plaything by the children unknown to their elders.

Tuesday, the news was received that a second tragedy had taken place in the most estimable family circle through the sudden death of the father and husband. It is said the sheriff had eaten and was seated in his usual quarters in the court house in Downieville chatting with his family. A short time later about 2:15 o'clock he complained of not feeling well and having a severe pain in his side. Dr. Carroll Sutton was called at once and immediately started for the bedside of his patient but upon his arrival was shocked to find that Sheriff Winstead was already passing away. The cause of death wah said to be an acute attack of indigestion.

Funeral services were held in Downieville Thursday at 2 o'clock and many citizens and friends of the family motored from this city to attend the services.

Charles J. Winstead was born 56 years ago in Sierra Valley, Sierra county and that county had been his home throughout his life. He attended the public schools of the county and after leaving school followed various occupations, until he entered the sheriff's office as a deputy under the later Sheriff Busch.

When Busch retired Winstead went back to private life in Sierra City, where he worked in the mines.. He conducted a small store and refreshment stand in the little city. Prior to being elected Sheriff he was speciman boss for eight years at the Sixteen to One mine at Alleghany, and he and Sheriff George Bynon were the nominees at the general election. Winstead won out and assuming the office last January.

He was a man of the highest honor and integrity, industrious and esteemed by all who knew him. He was the father of a large family of children, and he worked hard to support them and give them a good start in life.

On the 11th of March a little grand-daughter of the sheriff was accidentally killed by the discharge of a revolver.

Mr. Winstead is survived by his widow, Mrs. Inez Winstead, and the following sons and daughters: Mrs. Amelia Resseguie,, Charles Jr., James, Burke, Alta, Donald, Lewis and Franklin Winstead. Miss Alta Winstead has been in Los Angeles for several months takig a stenographic course so that she could be of assistance to her father in his office, and had only returned home last Saturday.

0

SPECIAL SERVICES DURING HOLY WEEK

Holy Week is being celebrated in the various churches of Nevada City with special services that will no doubt be largely attended by the members.

The following services have been announced:

St. Canice Catholic

High Mass was held at 9 o'clock this morning.

Processional of the Blessed Sacrament after mass.

Evening services at 7:30 o'clock.

Good Friday services: 9 a. m. Veneration of the Cross and the Stations of the Cross at 7 p. m.

Saturday services: Blessing of the Baptismal Fount at 8 a. m., followed by a mass at 9 a. m.

Trinity Episcopal

Good Friday services 10:30 to 11:30 a. m. Sermon by Rev. Washburn on "The Crucifixion."

Methodist Episcopal

Good Friday service from 2 to 3 p. m.

Midweek Prayer Service Thursday evening at 7:30 o'clock.

MINING SUIT IN PROGESS AT CARSON, NEVADA

The case of Coppermines Company of Ely against the Nevada Consolidated Copper Company has been on trial at Carson since March 10 and will probably be finished by the middle of April.

The case is being heard by Judge Norcross in the Federal Court and involves the hearing of 14 counter suits brought by the plaintiff.

In 1929 the Nevada Consolidated Company brought suit against the Coppermines Company to settle numerous controversies as to the extraction of ores from territory adjoining the former's main shaft. Judge Norcross rendered his decision in favor of the Nevada Con. on practically all points involved in February, 1930.

An interesting exhibit of the defendant company is a model of the mine pit at Copper Flat made by E. C. Uren. It shows the underground workings, the geology and some 180 churn drill holes.

The drill holes are made of duralinium rods and have the assays marked upon them for every five feet in depth.

Messrs. Colby, Chandler and Wallace of San Francisco represent the Nevada Consolidated Company, and Thatcher and Brown of Reno represent the plaintiff company.

0

NEVADA CITY MEN HURT IN ACCIDENTS

Three local men are convalescing at the Highland Hospital at Auburn. They have been employed at mines near Forest Hill in Placer County.

John Curry was struck over the eye by a falling crowbar and received a deep gash and a near fracture of the skull.

E. Browning was struck by the crank of a machine drill which he was running and suffered the fracture of two or three ribs.

Clyde Browning, his son, stepped on a nail protruding from a broken powder box and has an ifected foot.

The patiets, however, are all reported on the way to recovery.

0

MAY LOSE EYESIGHT BY PREMATURE BLAST

William Johnson, who is employed on the Tahoe-Ukiah highway project east of the Junction House, was the victim of a blasting accident Tuesday morning that may cost him his eyesight.

Johnson, who is an expert powder man, was in charge of the blasting operations and was placing a blast to which had been attached a fuse ready for discharge. He lit the fuse, and it almost immediately ignited the charge of powder, the blast blowing dirt and rocks into the man's face. It is believed that the fuse was defective.

The injured man was hurried to the Nevada Snitarium and Dr. R. .E. Werner summoned. He cleaned out the eyes of the injured man and while nothing definite can be told for several days, it is feared that the sight of the eyes will be lost.

0

SCHOOL TRUSTEES ELECTED TUESDAY

Mrs. Ella M. Austin, county superintendent of schools, has received partial returns from the various school districts of the recent school elections, the following districts having reported: Bear River, Henry Ripken; Birchville, H. Thomas, appointment; Cherokee, Henry Meyer; Chicago Park, Albert Lutenecker; Clear Creek, A. B. Black; Floriston, Russel Montgomery; French Corral, Mrs. Lillie M. Culver; Indian Springs, Mrs. Wade Brown; Kentucky Flat, Mrs. W. G. Kohler; Lime Kiln, Mrs. Alice Cole; Mariposa, Michell Bree; Markwell, Henry Eickhoff; North San Juan, Mrs. H. McCullough; Oakland, Harry Odgers; Overton, Oscar Lindsey; Rough and Ready, Edward Wilson; Sweetland, Fred Clark; Spencerville, Bud Kneebone and A. Anderson, appointed; Truckee, W. M. Englehart; Washington, J. Roberts; Wolf, J. M. Sanford; Meadowlake Union High, J. B. Clark and H. I. Snider.

TELLS OF INTERESTING TRIP THROUGH EUROPE

Miss Martha O'Connor, accompanied by her brother, enjoyed a most wonderful trip to Europe last summer, which she will tell in an interesting way to the readers of the Nugget. The first installment appears below and the subsequent installment will appear each week until completed.

JUNE 15

Left San Francisco via Western Pacific. Stops were made at Oakland, Stockton, Sacramento, Marysville and Oroville before entering the Feather River canyon, which for 100 miles is celebrated for its scenic beauty, to Portola.

JUNE 16

Salt Lake City was our next stop. We had one and a half hours to tour the city and saw everything that was worth while, including the Mormon Temple, Tabernacle, Grave of Brigham Young and many beautiful churches.

JUNE 17

Through Wyoming and Nebraska passing Laramie, Cheyenne and Omaha.

JUNE 18.

Arrived at Chicago. We have ten hours to inspect parks and boulevards for which Chicago is noted. We spent some time at the Michigan Lake Front. Also the immense store of Marshall Field on State street. We visited the large Field Museum near the lake. Same evening took the Parmlee bus to another depot and proceeded to Niagara which we reached on the 19th. Spent a full day at Niagara. Took the trip through the "Gorge" Route, including a trip on the trolley cages over the Niagara rapids; a veritable whirlpool! Quite a thrill! Also visited Brock Monument in the park. Leaving Niagara at 6 o'clock, June 19, we crossed the border to Canada, where we spent two hours in Toronto, a city of 750,000 inhabitants, where it is daylight until we leave at 10 o'clock.

JUNE 20.

Here we were switched on to the Canadian Pacific and started to Montreal. It is the principal city of Canada. It was very pretty and historic, having much of the "Old World" charm. We visited Mt. Royal, Notre Dame and other places. Stayed over night at the "Queen's Hotel,"

JUNE 21

Sailed from Montreal at 10 o'clock on SS Minnedosa, 22,000 tons, along the majestic St. Lawrence Route, 1000 miles of river, before we reached the open sea. Along its banks were fine old Canadian farms and quaint villages, churches and crossing the river, many fine bridges. Saw old and new Quebec, also the Plains of Abraham. Our course across the Atlantic was to have been by way of Belle Isle, but on account of icebergs, we were obliged to change our course and in so doing lost much valuable time. Consequently did not reach Ireland till June 29. The trip trdinarily is six, and over days.

JUNE 29

At 2:30 the tender came out to meet the SS Minnedosa and took us into Belfast. We immediately went through the customs and started by train to Dublin. Here we were domiciled in the Jury Hotel for the time being. Next morning we started on

(Continued on page 5)

LIMESTONE COMPAY PURCHASES PROPERTIES

A mill site and limestone properties has been purchased by the California Lime Products company comprising 145 acres, on the main line of the Southern Pacific Company near Towle for a consideration of $15,00. The properties were acquired from Viia Hvemphill of Roseville.

R. E. Mittelstaedt, president of the company, said the deposits constitute the largest and most accessible in he state.

Work of opening the quarry will start at once, so the company may produce solid carbon dioxide, known as "dry ice," agricultural lime, chicken grits and other lime products at a plant to be constructed near Roseville. Mittelstaedt said the project will give employment to 100 men.

The principal offices of the company are in Sacramento, with sales offices in San Francisco.

THE NEVADA CITY NUGGET

CONCENTRATES

It looks as though the Colfax road is going to have hard sledding, and instead of its being completed by next fall it is more than likely that a readjustment of land value assessments along the proposed route, or rather in that road district, will have to be made and the entire proceedings, including publication, gone through again; all because the Empre-Star Company officials claim that they did not read the proposal until too late to appear in opposition to it.

The road district embraces both the Empire and the Idaho Maryland properties and these companies' contention is that they are assessed, as far as acreage is concerned, at least ten times what the agricultural owners are. That they are also unfortunately within the Irrigation District and that in the event of foreclosure on account of the critical condition in which the Nevada Irrigation District now finds itself, they—having mine workings and improvemets on their lands—will probably have to bear the full burden of the bond issue, which will perhaps be in the neighborhood of $10,000.

The mining companies assert that they are perfectly willing to shoulder their share of the expense of improving the road, but not to the extent proposod under the bond issue.

In case bids ar ereceived and the district attempts to go ahead with the building of the road without consideration of the recent protest of the Empire-Star Company, that company insists it will enjoin the authorities and if necessary carry the case up to the supreme court in order to prevent the road being completed.

In th emeantime we suppose we must continue to navigate that ten-mile stretch of corrugated misery, which is at this time a disgrace to the county. A machine gets more wrenching ,pounding and abuse in the ten miles betwee Grass Valley ad Bear River than it would in 2000 miles of ordinary driving, and when a driver finishes this trip he feels like taking off his hat to any man-made machine that can stand up against this hammering and still retain its bolts and nuts.

Let us hope that some amicable agreement between our Board of Supervisors an dthe mining companies can soon be made which will be satisfactory to both, because we need—indeed, we must have—a better road to Colfax.

Governor Rolph, Mayor Rossi of San Francisco and Senator Maloney had rather a disagreeable experience in the air while returning from a visit to New York's mayor, Jimmie Walker, at Palm Springs.

As the Governor described it, they were among the clouds in a heavy wind when a high peak of the Tehachapi suddenly appeared in front of them.

Their pilot turned about seeking an outlet through the pass, but they were again confronted with another mountain. Then the pilot sought safety by climbing quickly to a height of 11,000 feet, but they were still in dangerous air currents.

A chance opening in the sea of clouds appeared beneath and the pilot zoomed down at a steep angle and terrific speed to a field where an emergency landing was made.

That there is an unusual lack of snow in the higher mountains is apparent to anyone passig over the Sierras.

On the south or sunny slope of the hills there is practically no snow below the 6500-foot contour. On the north slope there is snow from Yuba Pass to the summit, but apparently not over 2½ feet, even in Summit Valley. No snow whatever lies either in the Donner Lake basin or around Truckee.

Lake Spaulding appears from a distance to be about half filled, but Division Superintendent Herbert Cooper says he believes there will be run of water sufficient to fill the lake, provided the usual spring rains no not fail us.

For a long time the Southern Pacific abandoned the outside tracks at Cape Horn, above Colfax.

When the line was double-tracked a tunnel was carried through the hill below the clig, but it shortened the distance and consequently made the grade steeper so that the heavy freights had difficulty in pulling through.

The railroad company has been at work for some time placing a massive concrete retaining wall along the precipitious bluff and outbound passengers can onc eagain view the rugged canyon of the American and the tiny-lookig suspension bridge of the Iowa Hill road which spans it far below.

Yes, Reno and Washoe County are doing very well, thank you, under Nevada'e new gambling law.

So far 96 licenses have been issued, the Bank-Palace Club paying the largest fee of $1875. A total of about $6000 has been paid into the county treasury to date and with the expected influx of divorcees who can take the "cure" now in six weeks instead of three months, the outlook for a busy season is quite rosy.

CAMPTONVILLE ITEMS

CAMPTONVILLE, April 3 Special).—The board of trustees of the Camptonville Union School District held a meeting a few days ago and decided to give a big benefit dance in the middle of May, benefits from which will be used for the improvement of local school property.

The board also took up the matter of transportation for some of the children in the Garden Valley district, and is endeavring to make provision to bring them to the highway to meet the regular bus running in that direction.

An inspection of the school property was also made at this time.

G. T. Langley returned Tuesday from a short business visit to his property situated near Modesto.

Evan W. Thomas passed through town Wednesday from Downieville en route to Antioch.

Floyd Thomas of Browns Valley was a business caller in this section Wednesday.

David Lewis left Wednesday for Antioch, called there by the death of a relative.

Mr. and Mrs. Andrew Bachels of Goodyears Bar passed through town Wednesday en route to their home.

Edward R. Russer of Browns Valley was in town Wednesday on a short business call.

C. H. Greene of Grass Valley was in town Wednesday en route to Downieville.

Fred J. Joubert, incumbent, was re-elected to the board of trustees of the Camptonville Union School District without opposition at the school election held Friday.

William C. Cunningham and son Edgar motored to Sacramento Saturday on business.

Fred J. Joubert motored to Auburn Saturday on a brief visit.

Miss Doris Nightingale of Nevada City passed through Saturday en route to her home at Pike City on a week-end visit.

The following were among those motoring to Downieville to the dance Saturday evening: Mr. and Mrs. W. C. Cunningham and daughters Adele and Gladys, and son Edgar, Mr. and Mrs. Earl Kriegal, Mr. and Mrs. Fred H. Butz, Mr. and Mrs. Acton M. Cleveland, George Butz and Lawrence Turner.

Miss Lesta H. Joubert arrived Saturday from San Jose to spend Easter vacation with her parents at Oak Valley. She is a student at the San Jose Teachers' College. Miss Helen Jackson accompanied her.

District Attorney J. M. McMahon and wife of Downieville passed through town Saturday en route to Nevada City.

Earl Kriegal and family of Auburn spent the week-end visiting the W. C. Cunningham family at Celestial Valley.

Mr. and Mrs. Jos. Lavezzola and daughter of Downieville passed through town Saturday en route to North San Juan.

Erle Pauly and brother Myron arrived Saturday from Marysville and left for Mohawk. Ray Knickrem accompanied them.

Mr. and Mrs. Earl L. Cleveland left Saturday for their home at Sacramento after a couple of days visit here..

Mrs. Hazrl McDowell of San Jose arrived Saturday on a short visit with relatives here.

Mr. and Mrs. Julius E. Pauley and sons Warren and Leland motored to Marysville Saturday on a day's visit.

Mr. and Mrs. A. J. Heether motored to Nevada City Saturday on a short visit.

Miss Jessie Smart arrived Friday to spend a week's visit with her parents, she is a student at the Marysville Union High School.

David Lewis returned Saturday from Antioch where he attended the funeral of the late Jonathan Thomas.

Mrs. Ben Huddleson and party of Modesto arrived Saturday on a week-end visit with friends here.

John and Albert Jaynes, who are employed at Downieville, spent a few days last week visiting here.

Mrs. F. S. Labadie and Mrs. Acton M. Cleveland motored to Marysville Monday on a short business trip.

County Surveyor Jason R. Meek accompanied by his grandson, William Meek, was in town Monday on official business.

Miss Katheryne Pauly, student at the San Juan Teachers College is spending Easter vacation visiting her parents here.

Myron Pauly returned Sunday from a short visit at Hohawk to spend the week here.

Mr and Mrs. Levi W. Turner and children motored to the lower country Monday on a short visit.

Chas H. Greene of Grass Valley was a business visitor in town Monday.

Judge William B. Meek motored to Nevada City Tuesday on a short visit.

Fred J. Joubert motored to Nevada City Tuesday on a brief business call.

Chas C. Skewes of Grass Valley was a business visitor in town Tuesday.

We are still decorating chocolate cream Easter Eggs. Leave your orders today. Colley's confectionery.

Mr. and Mrs. Acton M. Cleveland and daughter Geraldine left Thursday for Sacramento on a couple of days' visit.

PERSONALS

Mrs. Brian Krough is confined to her home by a slight attack of flu.

Miss Ruth Grimes arrived from Sacramento to spend the Easter week vacation.

T. Hannrahan, who has made his home in this city for some time past, has taken his departure for Reno, where he may decide to make his home.

Misses Helen Winchester and Marie Allen arrived in this city Tuesday enroute to North Columbia where they will spend the week.

ELECTRICAL WIRING

L. B. Gregory will do all kinds of electrical wiring and all kinds of ignition work. He is well known here for his high class work.

Anyone wishing his services may call the Miners Foundry, Phone 10.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

Peculiar Quality

ABOUT OUR SERVICE

Our patrons have found that it is "different" from others; it is more personal, more sympathetic. And that is what you want when you have trouble in the family such as death and its attendant misfortunes

Practical mining tests from 25 to 1000 pounds, giving the free gold percentage of sulphurets, value of sulphurets, value of sulphurets and values of tailings.

Assays made for gold, silver, lead and copper. Mail order check work promptly attended to. Agent for New York-California Underwriters, Westchester and Capital of California Fire Insurance companies. Automobile insurance.

SANE MINING LEGISLATION WOULD BE SUPPORTED

When sane legislation for the formation and financing of corporations is presented, the mining industry will support it. Whe laws are sought that will facilitate honest financing, but control the unscrupulous and destructive inflation of privately-owned stocks, the mining industry will gladly subject itself to regulations that play no favorites.

Laws that interfere with original financing but permit stock manipulators to continue their gigantic robberies can have but one effect—they will stifle individual initiative, retard Western progress and place ever growing power in the hands of plutocrats who use it only for their selfish advantage.

Blue-sky conspirators halted the growth of the West, turned public funds into the hands of Wall Street, and created the frenzied stock inflation that brought about the panic of 1929 and the resulting hard times. And still they are not satisfied.

Just as surely as night follows day—if more blue-sky restrictions are placed on legitimate business, another Wall Street panic even more disastrous than the last one will result. And with the world in its present unsettled state, a recurrence of the present unemployment crisis will lead this county to the verge of bolshevism.

The man who seeks new blue-sky laws is a greater menace to America than the anarchist on the street-corner—for he helps create doctrines and that will, unless remedied, turn this country into a socialist soviet.—Mining Truth.

DEMAREST MINE NOW HAS CREW WORKING

SAN ANDREAS, April 2.—The Cherokee Development and Mining Company, controlled by Captain John C. Bension and associates of Seattle, Washigton, has resumed the operation of the Demarest mine, six and a half miles north of Angeles Camp, it is learned, around $11., in gold to the ton, extracted in stoping on the 100-foot level. Operations are being directed by John C. Bension, Jr. mine Manager.

Dewatering of the 670-foot incline shaft on the property is going rapidly accomplished, the water now below the 200-foot point. Three levels have thus far been established, namely, at the 100,200 and 600-foot depths, with a 70-foot sump. Lateral workings, approximating 1,000 feet, have been extended to date. The mining equipment includes a 75-horsepower electric hoist, air compresser and drills, etc., for expeditions operations. In addition to the ten stamps, the milling plant, which has a capacity of 50 tons a day, has three concentrating tables and other necessary machinery.

The 530-foot incline shaft on the Pioneer Chief mine, two and a half miles southwest of San Andres, being operated as a private project by I. E. Selix, San Francisco merchant, and associates, has been completely dewatered and repaired from collar to sump. Drifting is now in progress north and south on the 260-foot level on five-foot widths of ore averaging $10., in gold to the ton, it is officially learned. The 30-horsepower gasoline hoist is being replaced by electrically driven equipment of 50-horsepower.

In association with Seattle, Wash., business men, Joseph E. King, mining operator of San Andres, has acquired, under lease and bond from Mrs. Minnie Hingen, also of San Andres, the Bence property, embracing 20 acres, on Indian Creek, nine miles east of San Andres, and is actively prosecuting its development. A drift, now measuring 180 feet in length, is following a vein varying in width from four to seven feet and in value from $6., to 10., in gold to the ton.

Three feet of shipping grade ore is being developed in drifting operations on the 80-foot level of the shaft being sunk on the Black Oak mine, three miles north of Angles Camp. Alike showing, it is learned, prevails in the bottom of the shaft which has gained a depth of 90 feet. The property was recently taken over, under lease and bond, from the owner, R. E. Walsh, of Angles Camp, by Arthur Anthouy, of San Francisco, who is operating it as a private enterprise.

BIRD PEST DRIVES SHOULD BE CAREFUL

Those who indulge in bird pest drives or wars should do so with extreme care. This is the season when much of this sort of work is carried on by hunters.

One of the great dangers attached to this type of work is that of driving the game birds from the nests and country. Results often prove to be very disasterous for the desired variety of birds as well as alleged nuisance.

Several years ago a member of the Division of Fish and Game had occasion to attend one of these drives deliberately trTo hismfdwaoaooooo To his astonishment he saw hunters deliberately trample quail and other nesting game birds completely out of their nests, without giving thought as to the results. The nests were virtually destroyed and the birds were scattered and frightened away to other territories by the shouts and gunfire of the persons who were eagerly pursuing one of a "hated" variety.

A close watch on this particular district proved that it was many seasons before the quail and other game birds began to return, and by that time the despised variety was also replenished in numbers, thus proving that absolutely nothing had been accomplished.

If drivers of this sort are contemoccasion to attend one of the drives. fall when the birds are not nesting and when the least damage is liable to be done. Before the drive, a survey should be made by competent personss. The approximate number of game birds should be estimated and this figure should be compared with observations on the numbers desired for eradication. If the percentage is not large, the hunters might bo very well to let matters stand as thel are.

In making drives, competent captains or leaders should be chosen who will lead the hunters as quietly as possible and who will make it a rule to give a wide margin to the game birds at hand. Frightened birds will sometime leave a nest, never to return, or if they do return the eggs have become cold and hatching is impossible.

Remember, unless extreme caire is exercised, a great deal more damage will be done than there is good accomplished on these drives.

HEAVY EASTER TRAVEL EXPECTED

With thousands of persons in the San Francisco bay cities planning out-of-town trips over the Easter week-end, preparations were being made to entertain a rush of visitors traveling on the "dollar day" cent-a-mile fares announced by rail lines for April 3 and 4, with return limit of the following Thursday.

Introduced by the Southern Pacific Company on February 20 and 27 in line with its efforts to win back passenger traffic to the railroads, the unprecedented fare reductions are again expetced to result in a tremendous traffic movement thru seven western states.

Many special events here, including the inauguration of the Tanforan racing season on March 31, and the opening of the Pacific Coast League seaso on April 7 will fall within the limits of the Easter excursions, it was pointed out. The new "million dollar" ball park of the San Francisco "Seals" will be dedicated on the first day of the season.

NEVADA COUNTY PRIZE WINNER AT STATE FAIR

Nevada County was one of the principal winners of prize money among counties exhibiting at the 1930 California State Fair, it is shown in a compilation of county winnings completed to-day by Charles W. Paine, Secretary-manager of the of $254 placed it among the first ten of the 54 counties which entered exhibits.

Most of Nevada County's winnings were for appleh and pears. In addition to the prize money, the county was awarded a silver trophy for the general excellence of its exhibits.

Complimenting Nevada county on its showing, Paine said: "For a number of years this county has had a splendid exhibit at the State Fair, and has been a consistent prize winner. The disply at the 1930 Fair was one of the most comprehensive exer entired at this exposition, and created much favorable comment among the thousands of visitors. The attendance registers at the Fair included people from every state in the Union as well as most of the foreign countries, and the excellent display of products shown by Nevada was the kind of advertising for that county."

The State Fair directors are offering $10,000 in prize money for county displays at the 1931 exposition which opens in Sacramento, Septtember 5th, and it is expected that Nevada county will again participate.

ROAD EXPLORERS CUT WAY THROUGH JUNGLE

"We have heard our 'bridges' behind us and there is nothing left but to get through."

This was the conclusion of a recent radio message received from a pathfinding expedition engaged in blazing a trail for the sector of the proposed international highway lying between Mexico City and the Panama Canal, reports the California State Automobile Association. The party of road explorers is in charge of E. E. East, chief engineer of the Automobile Club of Southern California. The expedition consists of three cars and is equipped with short wave apparatus.

Slow progress is being made through jungles in the state of Oaxaca, Mexico, some 460 miles south of Mexico City. A dramatic story of pioneering the highway project is being recounted in brief radio reports. One message read:

" Made three-tenths miles today with lead car. Spent most of it builidng retaining wall and trenching inside of burro trail to hold car high on slope of deep canyon. in many places it is necessary to use block and tackle to keep car from going over cliff."

Communications from the caravan also stated that radio required for charging batteries. Moving all three cars and epuipment a distance of six miles required four days through one stretch of the jungle section. After leaving the end of the road south of Santa Margarita, a message stated that the Tehuantepec River was forded 88 times in seventeen miles, which required four days and two hours in travel time.

The expedition is now in the heart of a 68-mile section where there is no road of any kind. Following the river and burro trails the caravan hopes to reach Las Vacas shortly, after which passable road is expected to the Guatemala border. Automobile road will be found over most of the route through Guatemala and El Salvador. Available information indicates passable road again through Nicaragua and Cost Rica to San Jose, but 170 miles south the country is reported impassable for motor cars.

BEARING ADJUSTMENT AFFECTS OIL SYSTEM

One loose connecting rod bearing may cause some of the other bearings to become damaged in cars equipped with a full pressure oiling system, states the Free Emergency Road Service of the California State Automobile Association. The oil pressure is governed by proper adjustment of bearings.

UNDER-INFLATION HITS LIFE OF TIRE

The life of a tire is materially shortened by under-inflation, according to the Free Emergency Road Service of the California State Automobile Association. When the normal pressure of a balloon tire is thirty-five pounds and it is under-inflated five pounds there is a deficiency of about fifteen per cent.

BRIQUETS USED FOR REPLANTING FORESTS

Briquets for heating the home are familiar to California, but bruikuets for replanting our burned or denuded forests are something to write home about. Only the bripuets for reforesting are not inflamable but are composed of earth in which are buried two or three tree seeds and covered with a coating of paraffine to retain the moisture and act as a cement until the briquet is planted. Invented by Aksel Blaken, a Norwegian forester, this method is believed by U. S. Forest Service officials to have practical possibilities for reforesting the national forests, as it prolongs the planting season, eliminates the cost of transplanting seedlings and gives the maximum opportunity for their development and chances of surival.

Recreation records of the 18 national forests of the California Region for the past year shows that business conditions in 1930 affected the more expensive forms of vacations, such as sojourns at summer resorts and hotels, but had little effect on the simpler and inexpensive kinds such as hiking and picnicking. The number of guests at summer resorts and hotels operated under permit from the U. S. Forest Service in the national forests declined from 1,018,000 persons to 573,000, but the no. of hikers increased from 101,000 in 1929 to 112,000 picnickers increased from 1,174,000 to 1,336,000, and campers from 659,000 to 734,000. The unmber of permits for the summer homes increased from 5,876 to 6,092, a gain of 216, proving that the business depression did not reach the mountain cabins in the national forests. The total number of persons, including transient travelers, visiting the national forests of the State, declined from 18 million in 1929 to 16 million in 1930, according to estimates by the forest rangers.

Like the belief that fence posts will work out of the ground unless set at the right phase of the moon, our supposedly practical world has the use of wood, according to a report from the Forest Products Laboratory of the U. S. Forest Service at Madison, Wis. Among these fallacies is the belief that, in case of fire, wood in construction is more dangerous than steel under all conditions. It is true, say forestry experts, that wood will soon become charcoal when heated to about 572 degrees F. and that steel is little affected at such temperatures. But wood has one tremendous advantage in that it is a poor conductor of heat, so that the outside of large beams or thick planks may burn or char while the inside retains its strength. Steel in the same fire and carrying the same load is rapidly heated through, and not infrequently loses its strength and drops its load sooner than wood.

CHINESE EGG BILL PASSED BY SENATE

Designed to protect both the consuming public and the poultry industry of the state, the Senate passed without opposition the Harper-Slater bill.

Requiring that wholesale and retail merchants of foreign egg products must obey inspection and original container regulation, and that every bakery or restaurant must display a conspicious sign informing the purchasing public that foreign eggs are used in their food products, the Harper-Slater bill provides a long delayed protectionto the housewife.

Also aimed to benefit the poultry industry of the state, the resuls of the bill will tend to increase the use of fresh eggs and prevent slumps in the egg market similar to that recently caused by the importing of the equivalent of 55 million dozen of eggs in the twelve months perior prior to February.

CITED FOR UNUSUAL SERVICE RENDERED

State Traffic Officer L. T. Torres of the Santa Clara County spuad was today formally cited for unusual service rendered as an officer in a special order issued by E. Raymond Cato, superintendent of the California Highway Patrol.

The service performed by the officer included the arrest of two notorious "stick-up" men on february 25th and a man wanted for murder on March 7th.

On the first occasion, the citation order said, Torres assisted arresting Homer Cooper and C. W. Carson on a stolen auto charge. Questioning developed that both had engaged in 29 holdups in Los Angles in one of which three hotel guests were wounded. They are also alleged to have confessed membership in a gang of five criminals in Kansas City Mo., which held up two banks and killed a trific officer who attempted to prevent their escape. Torres found three loaded pistols on the men when arrested.

On the second occasion Torres arrested George Weyrauck and William Slingerf on a similar charge. Questioning by Captain John Pacheco developed that Weyrauck was wanted for the murder of a Tacoma Wash., service station attendant and the wounding of his wife. Both were identified as the men who participated in a series of burplaries in Oregon.

Torres joined the patrol in November 1930.

IS IT WORTH 4¢ to be a perfect hostess?

Cooking with electricity is like having a maid at practically no additional cost!

You simply prepare the food, place it in the oven, set the automatic time and temperature controls, and relax. When friends arrive for dinner you look your best. You are at ease. Your mind is not burdened about the meal. You have time for a friendly chat before being seated. When the moment arrives for serving the main courses, simply take the food from the oven—hot—and perfectly done.

The electric range of today has faster cooking elements—as fast as you'd want them. As for cost, the electric range is priced about the same as any other good range. And electric cooking is economical. The average sum that our customers pay for electricity for cooking is 1c a meal per person!

So when 4c worth of electricity can help you be a perfect hostess, why not have an electric range?—especially when the cost of electricity is less than the cost of one serving of ice cream.

A small payment down will place the electric range of your choice in your kitchen, ready to use. Come into our office or a dealer's store and see the beautiful new electric ranges.

PRODUCTION OF PYRITES DURING YEAR 1930

The production of prites in 1930 amounted to 347,512 long tons, valued at $1,028,880, it is announced by Scott Turner, Director, United States Bureau of Mines, Department of Commerce. These figures may be compared with a 1929 production of 338,465 tons, valued at $1,250,141. Production in 1928 was 312,815 tons, valued at $1,081,758. The figures include by-product pyrite and pyrrhotite concentrates from Tennessee, pyrite concentrates fro New York and partly-desulphurized tailings from zinc operations in Wisconsin.

As in preceding years, pyrites was produced in California and Virginia. The only new production of pyrites was in New oYrk, where the St. Joseph Lead Company produced 15,474 tons of concentrates at its balmat mine.

The quantity of pyrites sold or consumed by producing companies totaled 350,177 tons in 1930, 336,456 tons in 1929, and 310,250 tons in 1928. In 1930 the pyrites produced contained approximately 124,226 tons of sulphur; in 1929, 120,371 tons and in 1928 113,305 tons.

Imports of pyrites in 1930 were 368,114 tons, valued at $1,037,017, a decline in quantity of 28 per cent in comparison with the 514,336 tons, valued at $1,507,648, imported in 1929. Of the total imports in 1930, Spain furnished 325,992 tons; Canada 42,117 tons ,and Russia 5 tons.

FIGHT TO WIN BACK PASSENGER TRAFFIC

Carrying one step farther its fight to win back the notion's passenger travel to the railroads, Southern Pacafic Company today had announced plans for an amplified experiment with its now-famous "dollor day" offer transportation at approximately one cent a mile, effective over the Easter week-end.

Indicative of the successof its original venture a month ago, and further indicating its determination to carry the experiment forward on an increased scale, the company will establish the same low roundtrip fares, with sale dates April 3 and4, and with two revolutionary features included.

Detals of the Easter plan were made public here by Felix S. McGinnis, vice president of Southern Pacafic Company in charge of system passenger traffic.

With the same basis of fares as in the original "dollar day" experiment, McGinnis said, the fourthcoming offer will provide the following two additional features:

Ability to start trips on two days, Friday and Saturday, and extensions of the return limit to midnight of Thursday following date of sale.

In the instance of Southern Pacific's first "dollar day," the vice president pointed out, it was required that trips start on Friday. Many persons attracted by the low fares, he said, were handicapped by innability to use tickets on Saturday, with the results that this objection has been overcome in the Easter excursions.

Extensions of the return limit, McGinnis declared, should prove a boom to travelers in the seven western states involved, inasmuch as ample time is thus afforded for trips to disdant points on the railroad's Pacific Lines which extend from Portland to El Paso and from San Francisco to Ogden.

Roundtrip fares involved are but three fifths of the usual one way fare. With the widespread success of the initial Southern Pacific "doolar day" experiment established, railingroads of the entirt cauntry are watching with interest results of the forthcoming further experiment, McGinnis declared.

SAFETY LESSION POSTER POINTS DANGER IN PLAY

Prompted by the frepuency of traffic accidents resulting from a child suddenly darting into the street to retreive a ball, the March lesson and poster for school childern issued by the Public Safety Department of the California State Automobile Association and the illustration have been distributed by the motorists' organization to mbre than 13,000 classrooms in northern California and Central California.

Pointing to the tendency which causes childern to pursue a ball into a traffic-crowded street in the face of almost certain injury of even death, the instruction data is devoted to an effort to raise a question in the minds of childern concerning the relative value of a ball and human life.

A few simple suggestions are advanced for the use of teachers in presenting compasisons between the pleasure to be derived from a ball that a ball is short lived and if not soon lost is soon worn out, while a limb badly damaged is never again the same. The pain resulting from even a slight accident is often severe, while many non-fatal accidents result in permanent disfigurent and inconveince. Among the points emphasized in the lession are the following:

A ball can be compared, in value, to a human life or limb.

The selection of a proper place to play ball is an affective safeguard.

A resolution to avoid running into traffic is likely to be forgotten in the excitement of play.

The wise child will seek to prevent an accident to himself by refusing to take part in games where there is reasonable danger of a ball being thrown into traffic.

PARENTS MUST SIGN MINOR'S APPLICATION

The California Highway Patrol today invited the attention of the motoring public to provisions of the law setting up the method whereby parents and others who have signed the application of a minor for an operator's license may be released from the liability they have assumed.

The division of Motor Vehicles, it was stated cannot, under the law accept an application of a minor for an operator's license may be released from the liability they have assumed.

The Division of Motor Vehicles, it was stated cannot, under the law accept an application for relase from liability unless the application has been verified and properly notarised as required by law.

Persons seeking to file such release applications were advised to secure from the nearest branch office of the patrol a correct form which has been devised. These forms are now avaliable at all branch offices of the division and the patrol.

Under the present law no minor may obtain an operator's license unless the application is signed by both parents, if both are living, or by his guardian, employer or other person having custody of the minor. The person or persons signing the application then become liable for damages caused by the minor as a result of negligence. The only exception is when the minor is driving a vehicle as the agent of someone other than the person signing the application.

In cases in which the person signing the application of a minor makes formal request for relase from liability the law requires the Division of Motor Vehicles to cancel the license.

UNITED STATES MINERAL PRODUCTION IN 1930

The estimated total value of mineral products in the United States in 1930 was approvimately $4, 795,000,000, as announced by Scott Turner, Director of the United States Bureau of Mines, Department of Commerce. This is a drop a about 18 per cent from the total value of mineral products in 1929.

Declines in values, accounted for both by lower unit prices and by the fallinf off in output of nearly all mineral products, are principally explained by the depresion prevailing during the year in most lines of industral activity. The total of value of metallic products in 1930 decreased about 33 per cent, as compared with 1929. Notable decreases in total values, ranging from approximately 25 to 50 per cent were recorded for copper, irion, silver, lead and zinc, but the value of gold production increased slightly. Total value of non-metalic mineral products in 1930 from the proceeding year. Of the mineral fuels, the total value of nutural gas increased, while the total values of bituminious coal, natural nutural gasoline, and pretoleumrecorded sharp declines.

IMPROPRELY FILLED TIRES HIDE SQUEKS

Uuder-inflated tires often eliminate squeks which recur when the tires are given the proper amount of preasure, according to the Free Road Service of the California State Automobile Association. In order to detect squeks, rattles, and other unusual noises tires should be inflated to the correct capacity and the car driven over a rough surface.

ELECTRICAL WIRING

L. B. Gregory will do all kinds of electrical wiring and all kinds of ignition work. He is well known here for his high class work.

Anyone wishing his services may call the Miners Foundry, Phone 10.

HIGHWAY BILL ASSURES IMPORTANT NEW ROUTES

Important additions to the state highway system are now assured, following signing of the Edward-Kline Bill by Governor James Rolph, Jr., according to the California State Automobile Association, which activeely supported the policy under which the new roads were selected. Five Northern California routes, including two in the bay region, the provided for in the measure. Altogether, the bill authorises the improvements and inclusion in the state secondary system of twentytow roads, existing or rojected, totalling about 304 miles.

The bay region roads will be from the new Broadway tunnel at the outskirts of Oakland to Walnut Creek, in Contra Costa county, and from Valleja to the intersection kuown as the Napa "Y". The three other Northern California roads will supply essential links for motor travel between California and bording states. These roads will be from Weed to the state line, connecting to Klamath Falls, Oregon; providing the only state highway between California and central Oregon, supplying a missing link on the Yellowstone Cut- Off and the only state highway between California and eastern Oregon; and Quincy to the Nevada state line, a commercialy important route that will also open up a vest recreational area.

Another highway of importance to the northern and central part of the state included in the is the Bakersfield to Mojave connection. Allthough located in the southern area, this route will influnce tourist travel northward by completing the connection between the Golden State Highway, along the San Joaquin Valley, and the gateway at Needless.

Senator Arthur H. Breed, president pro tem of the Senate and a director of the California State Automobile Association, and representatives of other organizations interested in highway progress, were present at the signing of the bill by Governor Rolph. The bill was sponsored by the Association, Automobile Club of Southern California and the Sate Chamber of Commerce.

The additions to the state Highway system were selected as the results of a fifteen months engineering and economic survey by the state Department of Public Works. Commenting on the Signifance of the measure, D. H. Lafferty, President of the Automobile Association, said: " The signing of this bill marks the furition of a policy strongly supported by our Association, which is that roads shall be added to the state system only after a scientific study has shown that their inclusions is justified on the basis of statewide use. This ends the old haphazard method of adding roads through political pressure."

NORTH SAN JUAN ITEMS

Mr. and Mrs. E. L. Cleveland, from Sacramento, passed through San Juan on their way to Camptonville.

Mr. Climo was a visitor in town Monday.

Jack Rodgers was in town the first of the week.

Mrs. Yori was in from Sweetland Friday on business.

Mr. and Mrs. Wesley Bineing from Sacramento are visiting Mrs. Bineing's mother, Mrs. Mushfield.

Mrs. Joe Lavezzola and daughter Katherine was down from Downieville on a visit Saturday.

Mr. Wain Hunter came up from Colfax on his way to Downieville where he will spend his vacation.

Mr. Bullenton was down from the Log Cabin.

Mr. Frank Wood and Mr. Clark came up from Sweetland on a business trip.

Mr. Kiken passed through town Tuesday on his way to Downieville.

Bertha Valisco and Mr. Kurr went to Nevada City Friday.

Mrs. Capolla of Sweetland was in town on businesh.

Mr. Fred Joubert, Mr. Meek and Mrs. Acton Cleveland went to Nevada City Tuesday and brought Jack Lord back with them.

Mrs. Janes and Al Janes were down Sunday from the Log Cabin.

Mr. Abe Lohman is down from High Point on business.

Personal

Wm. P. Clerkin, French Corral stockman, was a business visitor in Nevada City last week.

Richard Nickless of the Kopp's bakery force, is back at work after suffering an attack of the flu.

Carrol Coughlan, student at Sa. Mary's College, at Oakland, is home for Easter week vacation.

C. E. Trazona, Sacramento mining man, who is interested in property in southern Sierra, is here on business.

Mrs. Bessie Nicklessis confined to her home on Alexander street, suffering from an attack of flu. Her daughter, Mrs. C. J. Rouse of San Frascisco, is here attending her.

Miss Dorothy Baker arrived recently from Oakland to spend her Easter vacation in this city with her parents, Mr. and Mrs. E. J. Baker.

Chris Petersen came down from the Gold Lead mine for a few days visit.

Miss Mary Jones, who is attending the San Jonse State Teachers College, has arrived to spend her vacation with her parents, Mr. and Mrs. W. P. Jones.

Miss Elizabeth Jaynes visited in Colfax Tuesday afternoon.

APPLICATION FOR APPROPRIATING WATER

The Division of Water Resources held a public hearing on an application by Blue Lead Consolidated Mining Company, care Francis Dunn, attorney, San Francisco, on Wednesday, April 1, 1931, at 10:00 a. m. o'clock in Room 401 Public Works Building, Sacramento. The application is for appropriating 2 cubic feet per second from Logan aCnyon tributary to South Fork of Yuba River for mining purposes in the vicinity of North Bloomfield.

The application is protested by Bart Sweeney, care E. H. Armstrong, Attorney, Grass Valley, Calif., who claims prior rights to the use of said water.

Hearings before the Division of water Resources are open to the public and appearances thereat are not limited to parties of record interest in the application heard.

Everett N. Byran, hydraulic engineer of the Division will act as examiner.

USING CHOKE IN START OVERDONE

Motorist often overdo their use of the choke in starting, according to the Free Emergency Road Service of the California State Automobile Association. This is partically true when the car has a down draft carburetor. Gravity is the essential principal of this type, and too much choking will cause an excessive amount of fuel to enter the combustion chambers.

Run-Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year-old" at night, you must relish your food and properly digest it. If you can't eat, can't sleep, can't work, just give Tanlac the chance to do for you what it has done for millions.

Mrs. Fred Westin, of 387 E. 57th St. North, Portland, Ore., says: "Tanlac cured my stomach trouble completely after three years suffering. It built me up to perfect health, with a gain of 27 lbs."

Tanlac is wonderful for indigestion—gas pains, nausea, dizziness and headaches. It brings back lost appetite; helps you digest food, and gain strength and weight. No mineral drugs; only roots, barks and herbs, nature's own medicines. Less than 2 cents a dose. Get a bottle from your druggist. Your money back if it doesn't help.

FRENCH CORRAL ITEMS

FRENCH CORRAL, April 1.—(Special to The Nuggete)—The last day of March and no rain yet. The old "lion" muht be dead. In this section, we are anxious for a rain for many reasons ,but we have no "Hatfields," so must patiently await what April may bring.

We hope to have irrigation water enough for the summer, a crew of men have been busy for the past weeks doing repair work on ditches and reservoirs and flumes. We believe the work is about completed.

We are pleased to state that Mr. Thos. Hall of Birchville, who has been ill for the past two weeks with pneumonia, is slowly recovering. His son, Chas Hall of Folsom, has made frequent visits and brought their home physician with him. Miss Lucy O'Connor, trained nurse, has charge of the case.

Through an oversight, we omitted mention in last week's items of an auto accident in which ex-residents of French Corral were concerned. Mrs. Thos. Fogarty, Mrs. Verne Fogarty and two little children and Mrs. Wm. Carrpenter of Marysville, were coming from Sacramento. Mrs. V. Fogarty was driving. Their machine skidded and overturned twice, Mrs. Thos. Fogarty was badly cut about the face and head, one rib broken. Mrs. Carpenter was badly hurt in shoulders and breast. The rest escaped with a few scratches. Both ladies are still confined to their beds. Mrs. Thos. Fogarty is a sister of W. E. Moulton of this place.

Mr. Frank Davey and Mr. Jack Loptz of Pleasant Valley were Thursday visitors.

Mr. and Mrs. R. McNamara of Tyler visited relatives here during the week.

John Langley and mining men from from Los Angeles had business here during the week.

Wm. Gordon was a visitor from the mountains this week.

Mrs. J. McCullough, Miss Miller Clerkin and Mr. F. Harris of San Juan were Wednesday visitors.

W. P. Clerkin returned Wednesday from a trip to the lower valleys.

Mrs. E. Schwartz, Mrs. K. Williams, Mrs. K. Sullivan and Miss Nelly Sullivan visited in Sweetland Thursday.

N. B. Bishop and Chris Bertchere had business in Nevada City Thursday.

Election of School trustees was held here Friday evening, Mrs. J. W. Culver was re-elected by unanimous vote.

The Hard Times dance, held in San Juan Saturday night was not the financial success they hoped for. However, all who attended had a fine time.

Mr. and Mrs. P. H. Flynn of Nevada City visited friends in Birchville and French Corral Sunday.

G. T. Sweetland, who has been staying in Sweetland for some time, returned to French Corral this week.

Mrs. E. Chatty and two children of San Francisco and mother-in-law, Mrs. Chatty and sister-in-law, Mrs. Langdon of Sacramento, is spending week-end with her parents, Mr. and Mrs. J. W. Culver.

The Angel of Death is again busy among our friends. We extend our deepest sympathy to the family of W. W. Washburn. Mrs. Washburn's son, Lester Crawford, passed away at the Jones Memorial Hospital in Grass Valley yesterday. While not a native of the Ridge, Lester attended school and grew to young manhood in San Juan where the family has resided for many years. He was well known and beloved by all. His step father, W. W. Washburn, has the stage line from San Juan to Smartsville.

We were sorry to learn of the death of Miss Tillie Tierson, who passed away in Oakland recently. She was a daughter of one of San Juan's good pioneer families and beloved by all. In her girlhood she qualified for school teaching and followed the professin all her life.

News has come of the death of another whom we numbered with our "French Corral boys," Wilford E. Darneal, eldest son of the late E. M. and Condelin Darneal, passed away in Berkeley. In his boyhood days, when baseball was the leading sport, Will was considered the crack 1st baseman. He qualified in a business course and during his life held many responsible business positions. He was for many years assistant cashier in the bank in Los Gatos where his brother, father and uncle, the late E. M. and Morgan Durneal kept a general merchandise store for many years at French Corral. Our deepest sympathy is extended to the family.

We are still decorating chocolate cream Easter Eggs. Leave your orders today. Colley's confectionery.

BIRTH ANNIVERSARY CELEBRATED TUESDAY

Tuesday was the twelfth birthday of Miss Ruth Curnow, youngest daughter of Mr. and Mrs. H .A. Curnow of this city, and in honor of the day a delightful birthday celebration was held at her home on Sacramento street.

About twenty little friends were present to enjoy the games and prizes and later to gather around the tea table, which was wonderful with its Easter decorations and numerous favors.

Those who attended were: Mamie Fradelizio, Betsy Bennett, Marian German, Amy Lou McCraney, Margaret Smittcamp, Adele Joerschike, Ida Norton, Dorothy Winney, Ida Pratti, Catherine Stephens, Jackson Englebright, Dick Tuttle, Reno Macari, Lacy Jones, Wesley Fuge, Carl Tobiassonn, Everett and Phil Angove and small hostess.

—0—

Personal

Kent Shuman, a recent graduate of the College of the Pacific, who has been the house guest of Judge and Mrs. Raglan Tuttle on numerous occasions, arrived with Pierson Tuttle to spend the coming week in this city. Avery Phillips drove down to meet them.

N. T. Mirov, formerly connected with the Pine Products company, arrived from Newark, Alameda county.

County Assessor H. C. Schroeder returned from a business visit to San Francisco.

TELLS OF INTERESTING

(Continued from page one).

the Killarney trip but left the train at Bally Brophy and for two days toured Irish Free State, stopping one night at Neenah, a town of 5000. Ireland is very beautiful. One should see it to appreciate its beauty. We saw a good many places of interest in Dublin, a magnificent city. Met DeValera, at a reception. The members gave us a royal reception. While touring Southern Ireland, I was taken to my mother's old home and saw all the things she used to tell us of, including Cullahill castle. The church where she was baptized, and the school house where she went to school up to the day before she left for America. Of my father's we found no trace, and only one loving relative, a very old lady whose memory wae not good.

JULY 1.

Took a sightseeing trip by night around Dublin taking in Phoenix Park (5000 acres), Trinity College, Pro. Cathedral and Glasnevin. We were taken into the room where the Dail Eireann stacked their arms during the last Irish Revolution.

JULY 2.

We now leave Dublin and cross the Irish Sea on our way to Wales. Land at Holyhead and pass through the Old Roman walled city of Chester. That night we spent at Loamington, one of the most noted of English Spas. Not much to be seen outside of houses, gardens and baths.

JULY 7

(The Shakespeare Country.

We visited Warwick Castle. It is furnished and is kept up by the Earl of W. and his mother. Both live there. Kenilworth is in ruins but is linked with wonderful memories. Next to Stratford on Avon, by way of Coventry, where we visit the old house where Shakespeare was born, where old pictures, papers ,etc., abound. After lunch to Anne Hathway's cottage. It is exactly as you see it in pictures. The garden is filled with old fashioned flowers, and splendidly cared for. The bed linen is over 300 years old and still intact. We now leave for London.

LEGAL NOTICE

NOTICE OF HEARING PETITION FOR ORDER DIRECTING CONVEYANCE OF REAL AND PERSONAL PROPERTY BY ADMINISTRATRIX.

In the Superior Court of the State of California, in and for the County of Nevada.

No. 3322.

In the Matter of the Estate of THOMAS J. PHELAN, also known as T. J. PHELAN, Deceased.

Mary C. Maitland, the administratrix of the estate of Thomas J. Phelan, also known as T. J. Phelan, deceased, having filed herein her verified petition praying for an order directing a conveyance of certain real and personal property of said estate in said petition and hereinafter described, and setting forth and alleging the certain facts upon which said petition is predicated;

Notice is hereby given to all persons interested in the estate of said Thomas J. Phelan, deceased, to appear before the said superior court in Nevada City, county of Nevada, state of California, on the first day of May, 1931, at ten o'clock a. m., then and there to show cause, if any they have, why a conveyance of said real and personal property, hereinafter described, should not be executed and delivered upon the terms and conditions set forth in that certain lease and agreement accompanying and made a part of the petition of the said administratrix on file herein, and the oral modification thereof, to which petition and agreement and oral modification reference is hereby made for further particulars.

Said real estate is described as follows:

Those certain tracts or parcels of land commonly known as the Phelan Ranch, situate in the county of Nevada, state of California, and more particularly described as follows:

NE¼ of SE¼ (less ¾ of an acre conveyed to John A. Ray) in section 16, township 17 north, range 8 east, M. D. B. & M.

60.87 acres in the SW¼ of NE¼, NE¼ of SW¼ and NW¼ of SE¼ of section 16, township 17 north, range 8 east, M. D. B. & M.

S½ of SE¼, SW¼ of SW¼ and lot 1 of section 15, township 17 north, range 8 east, M. D. B. & M.

NE¼ of SW¼ and NW¼ of SW¼ of section 15, township 17 north, range 8 east, M. D. B. & M.

S½ of NW¼ and S½ of NW¼ of NW¼ of section 15, township 17 north, range 8 east, M. D. B. & M.

Also the farming implements, tools and equipment situated on said real property, including five tons of hay.

Dated March 27th, 1931.

LEGAL NOTICE

NOTICE OF SALE OF REAL ESTATE

In the Superior Court of the State of California, in and for the County of Nevada

No. 3306.

In the Matter of the Estate of ELIZABETH M. SAUVEE, Deceased.

NOTICE IS HEREBY GIVEN that pursuant to law, the undersigned, GERTRUDE GOYNE, administratrix of the estate of Elizabeth M. Sauvee, deceased, will sell at private sale, subject to confirmation by the above-entitled court, to the highest bidder, for cash, lawful money of the United States of America, on or after ten o'clock A. M. of Saturday, the 28th day of March, 1931, at the law office of Nilon, Hennessy & Kelly, No. 232 Broad Street, Nevada City, California all the right, title, interest and estate of said Elizabeth M. Sauvee, deceased, at the time of her death, and all the right, title and interest which the said estate has, by operation of law or otherwise required other than or in addition to that of said Elizabeth M. Sauvee at the time of her death in and to those certain lots, pieces or parcels of land situate, lying and being in the city of Nevada, county of Nevada, State of California, and particularly described as follows:

1. That certain lot, piece or parcel of land together with the dwelling and other improvements thereon, situate in said city of Nevada, the same being designated and delineated on the map of the official survey of said city made by H. S B.radley in the year 1869, as lot numbered five (5) in block numbered fifty-seven (57).

2. An undivided one-third (1-3) interest in and to that certain lot or parcel of land situate in the city of Nevada, county of Nevada, state of California, being lot numbered six (6) in block numbered nine (9), as said lot and block are designated and delineated on the map of the official survey of said city made by H. S. Bradley in the year 1869.

TERMS AND CONDITIONS OF SALE: All bids must be in writing, and may be filed with the clerk of the above-entitled court or delivered to the said administratrix personally, or to her attorneys, Messrs. Nilon, Hennessy & Kelly at No. 232 Broad Street, Nevada City, California, at any time before the hour and day of sale. A deposit of ten per cent of the bid must accompany the same; the balance of the purchase price to be paid on confirmation of sale by said superior court. The administratrix reserves the right to reject any and all bids.

Dated March 11th, 1931.

RIGHT LEG FRACTURED, ANKLE DISLOCATED

Mrs. John B. Grissel, well known resident of this city, sustained a fracture of both bones of the right leg, and a dislocation of the ankle Tuesday. She and her husband were preparing to go for a ride and often Mrs. Grissel had taken her place in the machine it was noted that the side curtains of the car were missing.

Mrs. Grissel went to get them, but the car, which had been left in neutral, started to move. Mrs. Grissel becoming frightened jumped from the slowly moving car and sustained the injured stated. She was taken to the Nevada City Sanitarium where Dr. A. H. Tickell was called and reduced the fracture. Mrs. Grissel was removed to her home Wednesday where she will be confined to her bed for quite some time.

—0—

Mrs. A. M. Flint and sons, Garth and John W., arrived from Oakland. Mrs. Flint will visit with her mother, while her sons returned home.

NORTH COLUMBIA NATIVE DIES IN MARYSVILLE

Relatives and friends at North Columbia were grieved to receive the news of the death of Carl Chivel, which occurred in Marysville on March 21st.

He was aged about 27 years and was born at North Columbia, the son of William Chivel and the late Mrs. Fannie Chivel. He spent the greater portion of his life in the little town ,attending school and fol- little town, attending school and following school.

He was highly esteemed by the people among whom he had spent his life, and there is genuine regret in the little town over his death.

He is survived by his father and three sisters, Mrs. Cora Larson of Eureka; Mrs. Viola Cook of Chico and Mrs. Alma Nagaard of Hayfork.

Interment was made at Marysville. ;

We are still decorating chocolate cream Easter Eggs. Leave your orders today. Colley's confectionery.

CAMPTONVILLE MASONIC HALL TO BE REMODELED

Lee Bullington, local carpenter, has been given a contract by the local Masonic order for remodeling of the dance hall of their building. The work calls for the removal of the stairs going to the lodge room from the inside of the building and putting them up on the outside, with a suitable housing over them, and remove the present theatrical stage and put it in the back of the present hall.

This new arrangement will make the dance hall one-third larger than its present size, and will give the community one of the biggest dance halls in the mountains. The past dances have been so crowded that many have gone away, and those who were there were inconvenienced by the huge crowd. This improvement will give everyone a better time and afford a large crowd at the local summer dances.

This improvement is being made by the lodge and as soon as it is done, which should be by the middle of April, the community committee will then start to finish the interior, covering the rough walls with a suitable covering, and painting all the woodwork. This work is being done by the people of the community at large, who use the hall for all community purposes without charge and who have subscribed a sum of money to make these long needed improvements. It is hoped that all of the repairs and improvements will be finished before the big school benefit dance in the middle of May.

—0—

Forest Supervisor R. L. P. Bigelow, who has been in San Francisco on official business, returned home.

Stenger Williamson, a student at an Oakland engineering school visitwith his mother.

Prof. Woodleigh Metcalf of the University of California ,at Berkeley, and Merrit B. Pratt, state forester, were visitors in this city.

Mrs. Robert Coomber and children of San Francisco and Mrs. Coomber's aunt, Mrs. F. J. Brophy of Berkeley, passed through this city en route for North Columbia, where they will spend the week with C. J. English and family.
